

# teaching in ROOM 6

Students in Room 6 have been enjoying art and science lessons this term. An art favourite has been making 'Monsters' using paper bags. Science sessions has seen us mixing whipped cream to use as finger paint and making glitter goop. Students are busy learning the days of the week and completing a fun activity using play dough to make the 'day of the week'. A class favourite is the 'hidden treasure' activity, where students need to find the hidden letters in the sand.
